

EC2261:Intermediate Microeconomics II

Changes in Response to the COVID-19 pandemic

brunosalcedo.com/2261.html

Communication Changes

- I will hold virtual office hours on F13:00–15:00 at <https://westernuniversity.zoom.us/my/brunosalcedo>
- The best way to reach me is via email at bsalcedo@uwo.ca. Please include “EC2261” in the subject line.
- If you have a question that concerns the entire class, please ask it on the OWL forums so that the rest of the students can also see the answer.
- Check the course website regularly for announcements, documents, and videos.

Online Lectures

I will post new video lectures on my YouTube channel (youtube.com/c/brunosalcedo). I will also embed the videos on the course website for your convenience, and I will upload low-resolution copies to **OWL** for those of you who cannot access YouTube. New videos will be posted each Monday, Wednesday, and Friday by 10:30. You are responsible for watching all the videos, and reading the corresponding lecture notes.

Coursework and Grades

Your final grade will be determined as follows

- 62% from your midterm average (regardless of whether you missed one)
- 31% from the final project (to be assigned)
- 7% from the three problem sets
- Extra credit for active participation class or in the OWL forum

If your performance in one of the midterms was significantly worse than your performance in *both* the final and the other midterm, I will consider making an adjustment. However, I cannot commit to anything at this point, adjustments will be made on a case-by-case basis after the final projects have been graded.
